

CUSIP Request Volume Slows in November

Municipal Volumes Cut in Half from October to November

NEW YORK, Dec. 15, 2020 /PRNewswire/ -- [CUSIP Global Services](#) (CGS) today announced the release of its CUSIP Issuance Trends Report for November 2020. The report, which tracks the issuance of new security identifiers as an early indicator of debt and capital markets activity over the next quarter, found a significant decline in municipal and U.S. corporate debt volumes from October to November.

CUSIP identifier requests for U.S. corporate debt declined 41.3% in November, while requests for new U.S. equity identifiers fell 2.9%. Canadian requests were up 16.4% versus last month's totals. On a year-over-year basis, corporate CUSIP requests are up 3.4%, reflecting high volumes throughout the majority of 2020.

Commodity Insights

Municipal volume slowed considerably in November. The aggregate total of all municipal securities – including municipal bonds, long-term and short-term notes, and commercial paper – fell 52.6% versus October totals. On an annualized basis, municipal CUSIP identifier request volumes are up 9.8% through November. On a state-by-state basis, issuers in Texas requested 124 new municipal identifiers in November, followed by New York with 79 and Minnesota with 60.

"We saw a trend reversal in November after experiencing consistently high CUSIP request volumes in most major asset classes for the last few months," said Gerard Faulkner, Director of Operations for CGS. "The significant month-to-month decline in municipal identifier requests is particularly noteworthy. We will continue to watch muni volumes closely as we turn the corner to the New Year."

Requests for international equity and debt CUSIPs were mixed in November. International equity CUSIP requests were up 16.0% versus October. By contrast, international debt CUSIPs decreased 37.3% on a monthly basis. Syndicated loan requests were down 12.8% on a monthly basis and down 28.7% year over year.
