

# Upward Trend Continues for U.S. Drilling Activity - S&P Global Platts

HOUSTON, April 9, 2018 /PRNewswire/ -- S&P Global Platts Analytics today announced the U.S. rig count for March 2018 was 1,095, up 18 (+2%) from February 2018, and up 194 (+22%) from March 2017. This rig count includes U.S. onshore, U.S. inland waters, and U.S. offshore Gulf of Mexico drilling rigs.

- **March U.S. land rig count:** 1,053, up 17 (+2%) from the previous month and up 201 (+24%) from March 2017
- **March U.S. inland waters and Gulf of Mexico rig count:** 42, up 1 (+2%) from the previous month and down 7 (-14%) from March 2017

"We're seeing solid sequential gains in the month-to-month rig count," said S&P Global Platts Senior Industry Analyst Trey Cowan. "The bulk of the land-rig improvement was from increased drilling in Texas. A further breakout of the growth factors shows that the Permian Basin accounted for half the growth, with the remainder comprised of additional East Texas and South Texas drilling."
