S&P Global Market Intelligence launches Artificial Intelligence-enabled Document Analytics functionality on S&P Capital IQ Pro platform

AI-based technology enables clients to efficiently find and extract information from textual content

NEW YORK, Nov. 30, 2021 /PRNewswire/ -- S&P Global Market Intelligence has launched an Artificial Intelligence-enabled (AI) workflow tool on S&P Capital IQ Pro that enables users to search across and extract relevant insights quickly and efficiently from textual content. The new document viewer is part of ongoing enhancements being made to the platform's search and analytics functionality.

Developed as part of a multi-year collaboration between Market Intelligence and Kensho Technologies, the AI innovation hub for S&P Global, the new document viewer allows users to efficiently navigate through millions of text-based documents such as fillings, transcripts, and presentations, find the relevant information which may be hidden deep within documents, and easily conduct timely and fact-based analysis.

Abhaya Menon, Senior Director, Product Management at S&P Global Market Intelligence,says: "Market Participants want a platform which powers their research in a smart and efficient manner. The new functionality on S&P Capital IQ Pro greatly enhances our clients' ability to uncover the information they are looking for within our wide universe of content."

The newly rebranded S&P Capital IQ Pro platform also offers a real-time market monitoring dashboard, powerful screening functionality, data visualization and mapping tools. With S&P Capital IQ Pro Mobile, users can track and monitor the markets from their mobile device, while S&P Capital IQ Pro's Office suite seamlessly integrates with Microsoft Excel and PowerPoint to deliver hundreds of ready-to-use models and data-driven presentation templates.
