

# Energy Companies from Europe, North America and Asia Won Honors at S&P Global Commodity Insights' 24th Annual Platts Global Energy Awards

*USA's Valero Energy Corporation is Triple Winner, Taking 'Energy Company of the Year', 'Corporate Impact Award – Sustained Commitment', and 'Strategic Deal of the Year' Awards*

NEW YORK, Dec. 8, 2022 /PRNewswire/ -- S&P Global Commodity Insights, the leading global independent provider of data, insights, analysis and benchmark prices for the commodities, energy and energy transition markets, tonight honored industry excellence in 19 performance categories at the Platts Global Energy Awards gala held at the Cipriani Wall Street in downtown New York City. The Awards program, now in its 24<sup>th</sup> year and often described as the "Oscars" of energy, recognizes corporate and individual innovation, leadership, and performance in the energy and petrochemicals industry, and bestowed honors on energy companies from the U.S., U.K, Denmark, Uzbekistan, India, United Arab Emirates and Singapore. For a second consecutive year, CNBC correspondent Kristina Partsinevelos, whose reporting appears on television and CNBC's digital platforms, emceed the event, continuing a long history of CNBC guest hosts.

The theme for this year's Platts Global Energy Awards and program, aimed at exemplifying the attributes of the leaders making a difference in the industry and their communities, is: Committed. Connected. Charged.

**Saugata Saha, President of S&P Global Commodity Insights, said:** "We are proud to recognize the leadership and innovation of this year's finalists and winners of the Platts Global Energy Awards. These companies have demonstrated a commitment to excellence while serving customers and enabling a balanced energy transition, a key area of focus for the industry and our teams at S&P Global Commodity Insights."

One such standout this year was triple winner Valero Energy Corporation of San Antonio, Texas, USA, which walked away with **Energy Company of the Year**, **Strategic Deal of the Year**, and **Corporate Impact Award: Sustained Commitment** honors. A "clear and viable roadmap" for advancing a greener future, was front and center of the independent panel of judges' thinking when it selected Valero for the 2022 *Energy Company of the Year* honors. The company's investments, significant carbon capture sequestration efforts -- evident through its deal to advance an industrial-scale carbon capture pipeline system --and renewable diesel expansion project were said to set Valero apart from its competitors. In bestowing the *Corporate Impact Award-Sustained Commitment Award*, judges pointed to Valero's "profound commitment" to corporate social responsibility and support of more than 616 non-profit organizations.

First-time winners of a Platts Global Energy Award and companies to watch, included USA-based, freight locomotive manufacturing giant Wabtec Corporation, for **Commercial Technology of the Year**, with the judges panel noting its first-of-kind, heavy-haul, 100% battery-powered locomotive; and Syzygy Plasmonics, taking **Energy Transition Technology of the Year Award**, for its "chemicals from light instead of heat" electrified chemical reactor platform using photocatalytic technology. Judges foresee both technologies promising a positive impact on the future of energy.

In the individual achievement categories of the Platts Global Energy Awards, winners included:

- Gurdeep Singh of India's NTPC, who walked away with one of the most hotly contested awards of the evening: **CEO of the Year**. Judges noted his "ability to make real change" at India's largest power producer and the industry respect he's won as one of the early proponents of clean energy in India, refocusing to green energy from coal.
- Mohamed Jameel Al Ramahi from Masdar, UAE, was named **Chief Trailblazer of the Year** and was

lauded by judges for his acumen steering the business into one of the world's fastest-growing renewable energy and sustainable development companies.

- **Rising Star-Individual** for 2022 is Stephanie Perry of Avantus, USA. Described as an energetic and ambitious leader, judges were impressed by Ms. Perry's stewardship and strategy, driving the company's plan to develop one of the USA's largest clean-energy development pipelines while also deploying proprietary power plant technologies and digitally-connected delivery systems at the gigawatt scale.
- Winning the coveted **Lifetime Achievement Award** was USA's PSEG CEO, Ralph Izzo, with judges impressed by his exemplary leadership in establishing the company's Net Zero 2050 goals and being a champion of diversity, with an enviable track record of expanding opportunities for women, people of color, people with disabilities and creating a culture of inclusivity.

**COMMITMENT TO SUSTAINABILITY**

S&P Global Commodity Insights takes seriously its corporate commitment to a greener future and in effort to make the Platts Global Energy Awards more carbon neutral and sustainable, it reduced and recycled printed materials, reduced staff travel, offset the reduced staff travel by purchasing credits from two verified global projects (the Kubratovo Methane Recovery project in Bulgaria and the Mersin Wind Farm project in Turkey), and donated food and food waste. In addition, S&P Global Commodity Insights 1) partnered with Thrust Carbon, an industry-leading carbon intelligence platform that calculated the event's carbon footprint; and 2) encouraged, attendees to offset their own carbon emissions by visiting the Platts Global Energy Awards Offset Shop.
