

John F. Kerry, US Special Presidential Envoy for Climate, to Address CERAWeek by S&P Global 2023 in Houston

World's preeminent energy conference to focus on 'Navigating a Turbulent World: Energy, Climate and Security.' [Learn more at www.ceraweek.com](http://www.ceraweek.com)

HOUSTON, Feb. 27, 2023 /PRNewswire/ -- The United States Special Presidential Envoy for Climate, John F. Kerry, will address delegates at the 41st annual CERAWeek by S&P Global, March 6-10 in Houston.

The first-ever Principal to sit on the U.S. National Security Council entirely dedicated to climate change, Mr. Kerry previously served as the 68th U.S. Secretary of State and as a U.S. Senator representing Massachusetts.

"We are pleased again to welcome Secretary Kerry among the distinguished speakers at CERAWeek by S&P Global," said Daniel Yergin, Vice Chairman of S&P Global and conference chair. "At a time when geopolitics are reshaping the global energy landscape like never before and concerns for energy and climate security are at the forefront, his knowledge and experience at the epicenters of international politics and global climate diplomacy will be a timely and important contribution to the critical dialogues taking place at this year's conference."

Sec. Kerry will join the world's energy industry leaders, experts, government officials and policymakers, as well as leaders from the technology, financial and industrial communities addressing this year's conference.

[CERAWeek 2023: Navigating a Turbulent World: Energy, Climate and Security](#) will examine how a new era of global uncertainty and change is reshaping challenges and opportunities for the energy transition. The conference will explore strategies and solutions for reducing emissions while meeting growing energy demand—all as the world grapples with shifting geopolitics, economic uncertainty and the upheaval of war.

The CERAWeek 2023 conference program will explore [key themes](#) related to:

- The Energy Trilemma: Balancing security, transition and affordability
- Geopolitics and Geoeconomics: An era of volatility
- Competitive Landscape, Technology and Innovation
- Financing the Energy Future: The capital transition
- Supply Chains, Commodity Markets and Energy Transition
- Future Workforce: Diversity, equity and inclusion (DEI) and next-generation skills

The week-long event will also include the [CERAWeek Innovation Agora](#), serving as the center of technology and innovation programming at the conference. Featuring a community of thought leaders, technologists, start-ups, investors, academics, energy companies and government officials, the Innovation Agora will showcase transformational technology platforms in the energy space ranging from digitalization, AI, cybersecurity, analytics and connectivity, robotics, blockchain, additive manufacturing, mobility and decarbonization technologies. The 2023 program will also feature expanded "[Agora Hubs](#)"—dedicated areas focused on hydrogen, carbon and climate.
