

# S&P Global Market Intelligence expands RiskGauge and Credit Analytics solutions coverage to 400 million corporate entities including U.S. private entities

*Solution delivers a detailed picture of credit risk exposure for effective credit management*

NEW YORK, March 3, 2025 /PRNewswire/ -- S&P Global Market Intelligence, a provider of information services and solutions to global markets, announced today the enhancement of its RiskGauge and Credit Analytics corporate entity coverage, expanding access to a database of over 400 million companies across more than 200 countries and territories, spanning all major sectors and industries. Powered by proprietary insights and analytics, the enhanced solution also offers configurable and downloadable credit risk assessment reports to provide a comprehensive picture of credit risk exposure.

"As companies face increasing pressures to understand and mitigate credit risk, these solutions deliver critical insights that help organizations navigate complex decisions," said **Whit McGraw, Head of Risk & Valuations Services, S&P Global Market Intelligence**. "This coverage expansion complements our real-time data and analytical capabilities, enabling our clients to make informed, strategic decisions as they navigate the complexities of the global marketplace."

Key features include:

- RiskGauge score, a combination of financial, business and market risk, for more than 400 million companies across 200+ countries and territories, major sectors and industries
- Comprehensive up-to-date corporate information including company financials across developed and developing markets
- Early Warning Framework for potential credit risk deterioration, and economic and geopolitical hot spots
- Extensive workflow, data and analytics features for Non-Financial and Financial Corporates via Credit Analytics and RiskGauge Desktop platforms
- RiskGauge reports with detailed historical performance, financials, firmographics and key developments
- Data quality assurance via automated data audits and robust quality checks
