S&P Global Market Intelligence Launches Visible Alpha on S&P Capital IQ Pro Platform

The latest release includes more than 1 million data points from 7,300 companies across 170 industries, marking a significant milestone following the acquisition of Visible Alpha in 2024

NEW YORK, March 25, 2025 /PRNewswire/ -- S&P Global Market Intelligence, a provider of information services and solutions to global markets, announced today the latest updates to its S&P Capital IQ Pro platform featuring the integration of Visible Alpha's highly differentiated historical financials and consensus estimates data. Visible Alpha's industry-leading content, developed from granular sell-side analyst models, will be available to the flagship platform's users as an add-on offering.

"Bringing Visible Alpha onto S&P Capital IQ Pro extends and deepens the value proposition for our clients. Visible Alpha is the trusted source for granular historical financials and consensus estimates, and as a result, critical in understanding market expectations for companies at a level of depth that was previously very difficult, time consuming and inefficient to uncover," said **Warren Breakstone, Head of Data & Research at S&P Global Market Intelligence** "This is an exciting milestone for Capital IQ Pro, Visible Alpha and our clients who will benefit from this differentiated and unique dataset and extended platform capabilities."

The launch of Visible Alpha data and capabilities into S&P Capital IQ Pro will allow users to access:

- Consensus estimates and financials for more than 1 million line items from more than 200 contributors across more than 7,300 companies, with an average of 156 line items per company;
- KPI, segment, income statement, balance sheet and cash flow statements across more than 170 industries, with ability to click-through to source documents and models;
- Enhanced discoverability via a powerful line-item search;
- Curated peer groups to enable streamlined and enhanced peer analysis.

"The combination of S&P Capital IQ Pro's deep functionality and breadth of content with Visible Alpha's unique lens into market expectations creates an exciting opportunity for our clients to unlock new insights through an integrated solution," said **Rodney Pedersen, Global Head of Visible Alpha, S&P Global Market Intelligence**. "Visible Alpha & Capital IQ Pro users will realize immediate efficiency gains and we are excited to announce this enhanced solution."

In addition, the latest S&P Capital IQ Pro release introduced the addition of private company headcount data for more than 4.3 million companies, expanded transaction valuations coverage including estimated values for private company M&A deals and funding rounds and the expansion of Document Intelligence with new content sets to facilitate deeper interaction and insights across a broader corpus of textual datasets.

Founded in 2015 and acquired by S&P Global in May 2024, Visible Alpha provides consensus forecast estimates, key performance indicators, and analytics from in-depth sell-side analyst models and distributes the data through a variety of distribution channels including a web-based platform, APIs and Feeds. Visible Alpha is backed by a group of investment banks that are key contributors of research and data to the platform. Visible Alpha will be available as an add-on to S&P Capital IQ Pro.

The integration of Visible Alpha on S&P Capital IQ Pro follows the earlier incorporation of Visible Alpha data on S&P Global

Marketplace and via cloud distribution, offering seamless connectivity of Visible Alpha to the full breadth of data assets in the S&P Global portfolio.

S&P Capital IQ Pro is S&P Global's flagship data and analytics platform offering access to deep, meaningful data on the global financial markets, companies and industries that help market participants make informed decisions. It also provides proprietary research and in-depth analysis from thought leaders and industry experts and compresses more than 135 billion raw data points a year into actionable intelligence.
