## S&P Global Commodity Insights

"Committed to showcasing excellence in energy, we're pleased to open the nominations for our 2025 Platts Global Energy Awards that spotlight exemplary industry leaders and partnerships and celebrate breakthrough innovation from around the world that paves the way for a better energy future," said **Lyn Tattum, Vice President, Head of Conferences, Training & Strategic Media**.

Often described as "the Oscars of the energy industry," the Platts Global Energy Awards program recognizes corporate and individual innovation, leadership, and performance across a range of categories. The 20 categories include such as excellence in energy across upstream, midstream, downstream, liquefied natural gas, power and chemicals, as well as cutting edge technology, resilience-focused energy project financing, and personal awards for rising star, lifetime achievement, CEO of the year and more.

Winners of the Platts Global Energy Awards are determined by an independent judging panel of international energy experts whose backgrounds and experiences include regulation, policymaking, corporate leadership, trading, and strategic consulting. Neither S&P Global Commodity Insights nor its event sponsors submit votes or select winners.

The independent judging panel will select the winners from the list of finalists, and winners and finalists will be celebrated at a black-tie gala on Thursday, December 11, 2025, in downtown Manhattan.
