S&P Global Unlocks the Future of AI-driven insights with AI-Ready Metadata on S&P Global Marketplace

- **Machine-readable metadata boosts understanding and useability of cloud data**
- **Vendor-neutral design supports traditional, agentic and AI centric tools**
- **AI-ready datasets include economic, fundamental, cross reference, OTC derivatives, loan pricing, insurance, among others**

NEW YORK, July 17, 2025 /PRNewswire/ -- S&P Global (NYSE: SPGI) launched its newAI-ready Metadata on the S&P Global Marketplace, enhancing the modern discovery and search experience for customers and stakeholders. AI-ready metadata transforms how customers consume data in today's AI-first era. Acknowledging the demand for comprehensive, actionable insights, S&P Global's AI-ready metadata delivers machine readable metadata products that ensure immediate accessibility and usability for both human and AI consumers.

"The AI-Ready innovations we are delivering in 2025 mark a fundamental shift in how we serve our customers, showcasing S&P Global's commitment to transformative value that goes beyond traditional data delivery," said **Saugata Saha, Chief Enterprise Data Officer of S&P Global and President of S&P Global Market Intelligence**. "Data consumption is not one-size-fits-all; our customers require sophisticated, AI-enabled solutions that seamlessly integrate across diverse use cases, and we are dedicated to providing the high-quality AI-ready metadata necessary to meet them where they are."

Delivered under a complimentary license, AI-ready metadata provides machine-readable context that significantly accelerates time-to-value for AI and analytics use cases. By enabling seamless exploration across the S&P Global data ecosystem, the offering meets rising demand for rich, contextual data—going beyond traditional column names to support more powerful and effective AI implementations. The initial AI-ready datasets include data from S&P Global Market Intelligence covering economic, fundamental, cross reference, OTC derivatives, loan pricing, insurance, and textual data, among others.

Leveraging the S&P Global Marketplace, AI-ready metadata is designed to be extensible and authentication-free, facilitating easy consumption by agentic workloads. This data enhances machine readability at the column level for an increasing number of datasets delivered to customers' preferred cloud data providers. Today the S&P Global AI-ready metadata can be directly accessed by clients via Snowflake® with other distribution channels in the pipeline.
